## KS2 SATS Superstars

This week saw us take part in Key Stage 2 SATS Week at Barrow School. KS2 SATs (Standard Assessment Tests) are designed to evaluate the progress of children in Year 6 throughout years 3-6 and to compare how they achieve against other children of their age nationally.

After coming into school early each morning for a hearty breakfast, Year 6 sat tests in Reading, Grammar & Punctuation, Spelling and Maths across the week. Having carefully prepared her class throughout the year, the week was calmly overseen by the unflappable Mrs Burchell and, as a result, our Year 6's once again took the whole experience in their stride. We are all enormously proud of and impressed with their mature and focused approach! They enjoyed a well-deserved celebration at the end of a busy week with a whole class party!

## National ICT Award Nomination

We were absolutely thrilled to learn this week that we have been nominated for a national education award! Barrow School is one of just four other schools nationwide to have been shortlisted for the Education Business Awards category of 'ICT Innovation Award'.

Our ICT Lead, Mrs Smith, is very much looking forward to attending the awards ceremony in London next month, which is being hosted by BBC broadcaster Ashley John Baptiste.
